Today's Commencement speaker is Robert C. Roeder, a human resources management professional and consultant, open-hearted donor, community volunteer, and USI alumnus. An Evansville native and resident of Indianapolis, Mr. Roeder is one of the 151 graduates of USI's first graduating class in 1971.

As he worked full time at Whirlpool, Mr. Roeder studied business and became active in the Student Government Association, Alpha Kappa Psi, and co-chaired the Student Drive for Books, a student fund drive to raise money to buy books for the library. He saw a need to provide stimulating and significant experiences to students to create a true connection to the University. He was the founder of the USI Student Union Board (now named the Activities Programming Board) and served as president for three years. He received the Outstanding Student Achievement Award in 1971.

Mr. Roeder has more than 38 years of experience in the field of human resources, including the first 10 years of his career in human resources management. His first job after graduation was with the Indiana Employment Security Division as an employment counselor. He transferred to the Personnel Division as compensation analyst for the State of Indiana the next year. His progress through state employment escalated from co-chair of a task force on Job Classification and Compensation and working on special projects for the Governor's Office to director of Human Resources, appointed by Indiana Governor Otis Bowen in 1976. At the age of 30, he was the youngest personnel director in any of the 50 states.

Governor Bowen and Governor Robert D. Orr recognized his contributions to the Hoosier state by

presenting him two Sagamore of the Wabash honors, the highest distinction given in Indiana by a governor.

Currently Mr. Roeder is a principal and senior human capital consultant in the Indianapolis office of Mercer, a global provider of consulting, outsourcing, and investment services. His expertise is in executive compensation, employee rewards, and human resources management consulting. He is a nationally recognized specialist regarding employee total rewards, strategic compensation, and executive compensation. He works with clients in both the public and private sector, ranging from small family-owned companies to Fortune 500 companies.

In 1995 he received an Honorary Lifetime Award from the Indiana Society for Healthcare Human Resources Administration. He regularly speaks at local, state, and

Southern Indiana is home to J. David and Sarah K. Huber. They have lived in Cannelton much of their lives and now reside in Evansville. Both have played a role in the development of the University of Southern Indiana, and they are buoyed by the potential for continued growth.

Mr. Huber grew up in Cannelton, where his family owned and operated a funeral home. He earned undergraduate and law degrees from Harvard University. In 1962, he was elected a Perry Circuit Court judge, becoming the youngest individual ever elected to that post. When he clinched the primary, he was in his last year of law school. David served as a judge until 1970 and then practiced law in Tell City, Indiana, until his retirement in 2002.

A native of Evansville, Mrs. Huber graduated from Bosse High School and earned an undergraduate degree at the University of Evansville and a master's degree in social work at the University of Chicago. She worked at Evansville State Hospital and the Easter Seals Rehabilitation Center in Evansville and also was a consultant for the Lincoln Hills Development Corporation, a multi-county agency. She has served on the boards of many community organizations in Perry County. She has been active in efforts that support the development of housing for senior citizens with low income and has served on the development committee of Habitat for Humanity.

She is an advocate for the historic sites in New Harmony, watching the town's restoration with zeal. She has given leadership to Historic New

J. David and Sarah K. Huber

Harmony, serving as member and past chair of the USI/New Harmony Foundation Board of Directors.

Mr. Huber served as legal counsel for more than 32 years to Hoosier Energy, a generation and transmission cooperative providing electric power to 17 member electric distribution cooperatives in central and southern Indiana. He was their chief legal counsel for more than two decades.

He served on the USI Board of Trustees for 10 years in the capacity of chair of the nominating committee, the finance committee, and the long-range planning committee. He was elected chair of the board in 2002 and served in that capacity to 2006, a time when the University's reputation for academic strength, efficiency, and productivity grew. During those years, construction was completed on the \$27.5 million Rice Library, enrollment reach 10,000 students, and more

emphasis was placed on study-abroad programs for current students.

The Hubers' interests span academics, the arts, and athletics. They are longtime season ticket holders for basketball and members of the Varsity Club.

In 2001, the couple established a charitable remainder annuity trust to benefit the University through the USI Foundation. The Hubers' gift funds the J. David and Sarah K. Huber Endowed Presidential Scholarship. Since 1988, Presidential Scholarships have brought some of the state's top high school scholars to USI.

Mr. Huber is a member of the USI Foundation Board of Directors. He also is secretary-treasurer for the Schergens Foundation, which provides a number of scholarships each year to benefit USI students from Perry County. In 2008 he was inducted into the President's Circle, which recognizes those whose personal and volunteer efforts, advice, and expertise have been consistently present in shaping the University of Southern Indiana.

The Hubers will each be awarded a Doctor of Laws degree for their leadership and support of USI, the USI Foundation, the USI/New Harmony Foundation, and their willingness to help young people receive a good education, particularly those who have excelled in high school.

Dr. Brian L. McGuire, professor of accounting, associate dean of the College of Business, and director of the Master of Business Administration program, has been selected by his colleagues to receive the Integra Bank Distinguished Professor Award, recognizing his significant contributions to the University, the students, and the community.

Dr. McGuire cares about his students and extends a willingness and diligence in service to the University of Southern Indiana and the College of Business. Cost accounting, healthcare administration, and accounting information systems are his teaching and research interests. He joined the University in 1995.

Dr. McGuire received the 2005 Faculty Award for Teaching by the College of Business for his innovation in teaching, advising, and student assessment. His work with students in state and national competitions has resulted in multiple awards for the Accounting Department, including the Institute of Management Accounts' national student case competitions in 2008 and 2009 and the Beta Alpha Psi competition in 2010.

Meral "Kitty" K. El Ramahi, a University Honors scholar, will graduate summa cum laude with a Bachelor of Science degree in biology. She exemplifies the ideal student, one committed to excellence in her academic work while immersed in supporting student life on campus. During today's ceremony, Ms. El Ramahi will receive the President's Medal, the highest honor accorded a graduate.

Ms. El Ramahi has maintained a 4.0 grade point average in all of her coursework while serving as a resident assistant in Residence Life and participating in a variety of campus activities from leadership positions with the Student Government Association and Pre-Professional Health Club to active membership in the USI Honors program. She also was a student ambassador, a delegate in the Model United Nations, and a chemistry supplemental instructor. In fall 2008 she organized a Pre-Professional Health Conference, which received the Outstanding Campus Contribution Award and the Program of the Year Award. She is a member of Sigma Zeta National Science and Mathematics Honorary Society and Alpha Mu Gamma Foreign Language Honorary Society. She earned the USI Foundation Excellence in Learning Award in 2009 and was a member of the USI 2010 Homecoming court. She holds the Robert L. Moore Scholarship, the Alpha Omega Psi Scholarship, the Vice President for Top Student Leaders Award, and the departmental scholarship from the Department of Biology. She was selected as a USI nominee for Who's Who Among Students in American Universities and Colleges and was nominated and participated in the 2009 USI Honors Symposium.

In addition to course work, Ms. El Ramahi conducted two research projects under the direction of a biochemist in the Indiana University School of Medicine and a professor in the USI Department of Biology.

She served as an insightful advocate for students on the University Core

Curriculum Council this past academic year. The council assesses existing courses and evaluates the addition of courses to the core curriculum, the set of common courses required of all USI undergraduates. As part of that work, Ms. El Ramahi organized an independent research project to determine the effectiveness of the core curriculum as a component of a student's undergraduate degree experience.

Her long-term goal is to become a physician. She has earned acceptance into three medical schools and an interview at Harvard Medical School. She has been accepted into a competitive summer research position in New York at the world-renowned Brookhaven National Laboratory. Last year she was one of 18 students, from a pool of over 500 applicants, who participated in a pre-medical program at the University of Cincinnati's College of Medicine.

Fluent in English and Arabic, with a working knowledge of French, Ms. El Ramahi has a background rooted in diversity and a multidimensional outlook on life. She has lived in both Saudi Arabia and Egypt and has traveled to Bahrain, Morocco, and Switzerland.

Her personal philosophy is to be the best she can be. She explains, "I feel that I would not be doing justice to all my good blessings and opportunities if I did not pursue such opportunities to my fullest capability." She adds, "My life goal is to manifest that I value the concept of humanity through my passion for helping others, and, as Dr. Martin Luther King Jr. once noted, to 'Never be silent about things that matter because that is when life begins to end.'"

In addition to her devotion to USI, Ms. El Ramahi is devoted to the community. She has volunteered at the ECHO Community Healthcare Clinic, emergency rooms of local hospitals, homeless shelters, the Potter's Wheel soup kitchen, and as a tutor at the Newburgh Learning Center. She also has earned several certifications, including certification as a scuba diver and EMT-Basic.

Described as an amazing student leader with excellent organizational skills, Ms. El Ramahi is known for her caring manner toward other students. She served as an AMIGO, a student orientation leader, and during an orientation helped a freshman who was worried and confused about conflicting advice she received with regard to her first semester of classes. Ms. El Ramahi spent time with the new student, calmed her fears, guided her through advising in two colleges, and helped her register for the correct classes. That freshman felt good about her orientation experience and later became an AMIGO to help other students the way Ms. El Ramahi had helped her.

Ms. El Ramahi is the daughter of Dr. Kamal El Ramahi and Mrs. Kawsar El Ramahi of Newburgh. She is a 2006 graduate of Castle High School.
